# OUR FACTORY

All the products **we design are produced entirely in-house in our own factories** – ever since 1968. We currently have two automated manufacturing plants which are among the most modern and technologically-advanced in Europe.

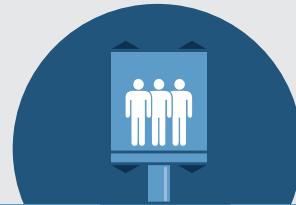

Our plant dedicated to the production of electrical components manufactures our own control systems, operating panels, displays, indicators and other parts on a manual production line.

# OUR PRODUCTS I

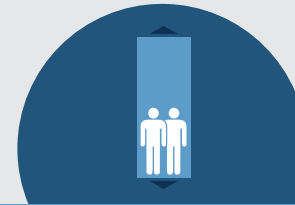

## MRL GEARLESS LIFTS

From 300 kg to 6.500 Kg and from 1 m/s up to 1,6 m/s speed.

## HYDRAULIC LIFTS

With or without machine room.

## MADE-TO-MEASURE LIFTS\*

Compliant with **EN81-21**.

## ACCESIBLE LIFTS

According with **EN81-70**.

Freestanding solutions for the exclusive transport of freight.

## LIFTS WITH SPECIAL LIFT CAR OR BESPOKE CAR FINISHES

## LIFT REPLACEMENTS AND UPDATES

Complete lift packages

## YOU NAME IT...

Tell us about your project as **we are sure we can help**

We can currently design and produce **any kind of lift.**

# OUR SERVICES

www.imemlifts.com // www.imemlifts.co.uk

**SAFETY** ✓  
**QUALITY** ✓  
**RELIABILITY** ✓  
**DURABILITY** ✓

Our lifts have a well-deserved reputation for top quality, reliability, durability and ease of installation and maintenance.

We provide our customers with detailed and comprehensive technical support (both electrical and mechanical) tailored to their particular requirements during installation and/or maintenance operations.

**In real time, in their language and with real highly-qualified personnel.**

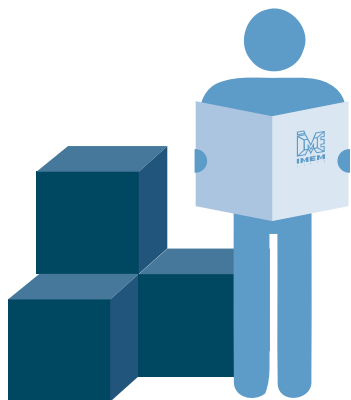

**SPARE PARTS AVAILABLE**

**We have spare parts available for all our lifts**, all of which are easily traceable using the lift reference number, the plan reference number, the control system reference number - not to mention the site address.

## OUR PARTNERS

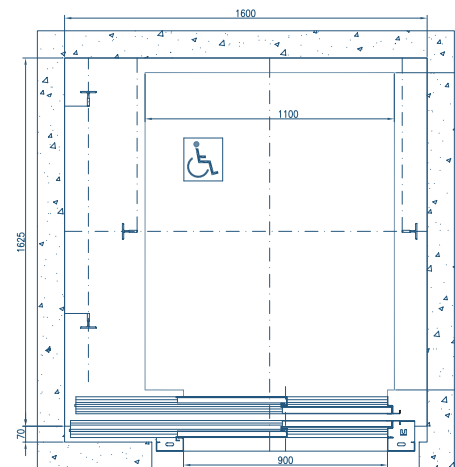

**We have a well-established network of partners all around the world** available to provide technical help and advice to our end customers, as well as the option of emergency attendance on site by personnel from **IMEM Lifts** or from our relevant suppliers (hydraulics, car and landing doors and so on) should it be required.

**All equipment is supplied with detailed and comprehensive documentation** and instruction manuals designed to provide optimum operational assistance.

**Our central focus is the design and delivery of lift systems fine-tuned to the specific needs and requirements of property owners and managers.**

We work closely with their appointed consultants and provide them with the best possible advice in order to arrive at the most effective solution for each project, in full compliance with all the relevant standards and regulations, and to ensuring that the lift system is delivered on-time, on-budget and fulfils the highest standards of safety, performance, appearance, efficiency and technical specification.

# SOME OF OUR PROJECTS (FRANCE-SPAIN)

## FRANCE

We are proud of having collaborated with many customers in France over the years, providing them with superbly competitive solutions for all kinds of projects.

**TURCOING TRAIN STATION, Lille**

**FLAMANVILLE NUCLEAR POWER PLANT**

**LYON CONFLUENCE SHOPPING CENTER**

**HOTEL DE VILLE, Mairie de Draguignan**

### THE PARIS UNDERGROUND

We produce lifts for the Paris Underground since 1999.

We have designed and produced hundreds of lifts for a huge selection of underground stations from the Paris Metro.

Over the years we have developed countless technological solutions of high added value to answer the most demanding needs concerning vertical transport including intelligent communications, full advanced maintenance plans, vandal resistant devices, etc.

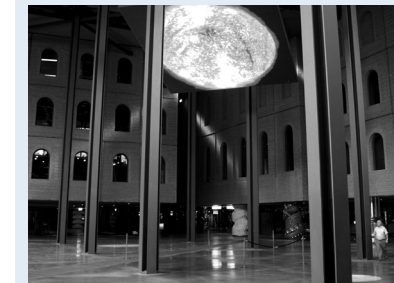

## SPAIN

We accumulate a large experience working in complex projects and emblematic buildings in which we are expected to provide the best results with minimum impact in the architectural environment.

**PALACIO DE LA MAGDALENA, Santander**

**DATA CENTER SANTANDER BANK, Cudeyo (Cantabria)**

**ALHÓNDIGA, Bilbao**  
(Building designed by Philippe Starck)

# SOME OF OUR PROJECTS (OTHERS)

## OTHERS

We supply our complete lift and elevator units or spare parts anywhere in the world always responding to our customers requirements.

# MOVE FORWARD WITH IMEM LIFTS

**01** We are one of **Europe's most experienced lift manufacturers** after almost fifty years of designing and producing goods and passenger lifts of all kinds.

**02** We design and manufacture **in-house**, an integrated process which eliminates incompatibilities.

**03** We are **acknowledged specialists in the design and manufacture of bespoke and custom-built lifts.**

**04** We offer well-informed and straightforward advice and support, **ensuring that each lift system is the perfect fit for each project, and outstanding in its competitiveness, efficiency, appearance and technical specifications.**

**05** Our aim is simply to **establish long-term, mutually profitable and beneficial business relationships with our customers**, and to fully satisfy and even surpass their requirements and expectations.
